

Saurabh Patil

Java Full Stack Developer | Expertise in Java, Angular, Spring Boot, MySQL & PostgreSQL

✉ saurabhpatil1583@gmail.com | 📞 +918237020886 | 📍 Pune | 🌐 [LinkedIn](#) | 📁 [Portfolio](#) | 🏠 [GitHub](#)

Summary

Java Full Stack Engineer with 4 years of experience building scalable enterprise applications in the Financial and Healthcare Services domains. Skilled in Java, Spring Boot, Microservices, Angular, Kafka, REST APIs, SQL, Docker, Kubernetes, and AWS. Proven track record of improving API response times by 45%, automating 1,000+ daily workflows, and integrating 80+ REST APIs through asynchronous, event-driven architectures. Experienced in production support, performance optimization, and delivering reliable, high-performance solutions in Agile environments.

Skills

Programming & Frameworks

Java (8+), Spring Boot, Spring MVC, Spring Data JPA, Spring Security (OAuth 2.0/JWT), Hibernate, Angular, TypeScript

Architecture & Integration

Microservices, RESTful APIs, Event-Driven Architecture, Apache Kafka, Redis, Service Discovery (Eureka), API Gateway, Circuit Breaker (Resilience4j), SOLID Principles, Design Patterns

Cloud & DevOps

Azure (AKS, App Service, Functions), Docker, Kubernetes, CI/CD (Azure DevOps Pipelines), Git, GitHub, GitLab, Jenkins, Maven

Database

MySQL,PostgreSQL

Testing & Tools

JUnit, Mockito, Postman, IntelliJ IDEA, JIRA, Swagger, GitHub CoPilot

Experience

Labcorp Limited Pune

Java Full Stack Developer July 2025- Present

1. Study Designer

- Built and maintained **80+ RESTful API** integrations consumed by Angular-based lab portals, tightening the feedback loop between backend services and clinical UI by 35%.
- Integrated **Apache Kafka** to enable **asynchronous communication** between microservices, improving application **performance, scalability**, and system responsiveness.
- Designed and deployed **Spring Boot microservices** to modularize backend functionality, improving scalability and maintainability across lab systems.
- Rewrote bottlenecked SQL procedures for patient and sample data retrieval, bringing average query response time down from **6s to 3.3s** – a **45% throughput improvement**.
- Configured a **scheduled job** to automate daily patient data sync and status updates across lab systems, eliminating manual intervention and ensuring data consistency in real-time.
- Implemented unit and integration tests using **JUnit/Mockito** for all defect fixes, achieving **90% code coverage** and reducing post-deployment regression defects by **40%**
- Incorporated **PrimeNG on Angular 14** into the lab portal UI, halving page load times from **4s to 2s** and improving responsiveness across data-heavy screens.
- Worked in an **Agile/Scrum environment**, actively using **JIRA** for sprint planning, defect tracking, and progress monitoring.

CRISIL LIMITED November 2022- July 2025

Java Full Stack Developer

1. Publishing

- Developed an **automated document generation system** using **Apache POI**, reducing manual effort by **70%**.
- **Optimized database queries**, enhancing system performance by **50%** and **reducing query execution time from 5s to 2.5s**.
- Integrated **100+ RESTful APIs** with Angular services, improving front-end and back-end communication **efficiency by 40%**.

2. ESG

- Implemented an automated ESG score monitoring system, reducing **manual tracking efforts by 80%**.
- Designed and developed **RESTful APIs** using **Spring Boot** to support data processing and integration across microservices.
- Implemented a scheduler triggering **1,000+** automated emails and UI alerts daily for ESG score updates.
- Created **10+** interactive and dynamic data visualizations using Highcharts, enhancing data analysis **efficiency by 60%**.
- Leveraged PrimeNG framework in Angular 14 to improve UI responsiveness by **50%**, reducing page load times from **3s to 1.5s**.
- Implemented logging using **SLF4J** as a facade with Logback including appenders, rolling policies, and log levels for different environments.
- Actively participated in **code reviews, defect resolution**, and client-driven enhancements within Agile delivery models.

Education

Rajarshi Shahu College of Engineering, Pune	Bachelor of Engineering • 8.56
Mechanical Engineering	June 2018-July 2021
Centre for Development of Advanced Computing (CDAC)	A++
Diploma in Advanced Computing	March 2022 - September 2022

Awards

Insta Award Crisil 2025
Recognized for contributions to UI and backend development.
Best Performer
Bagged Full Stack Professional and API Professional skill tags at Infosys for demonstrating strong expertise in back-end and frontend development.
